Create or upload files and folders

You can create **New** files and folders and upload existing files and folders from your device. In SharePoint, select **Upload > Files**. Or select a location in SharePoint and drag and drop files or folders from your device.

Share files

Select a file and then select **Share**. You can grant **Edit** or **View** permissions for recipients and set time limitations on a file to specify when it will no longer be accessible.

Based on admin settings, the three levels of sharing are:

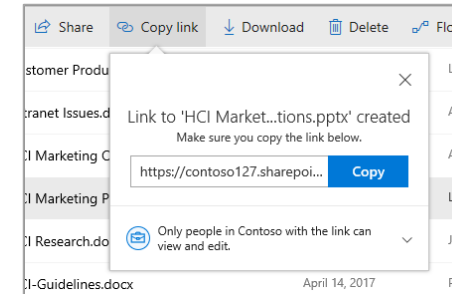

Anyone – people inside and outside your org can access. Receive links directly or forwarded.

People in your org – everyone in your org can access.

Specific people – specify email addresses of the people you want to give access to.

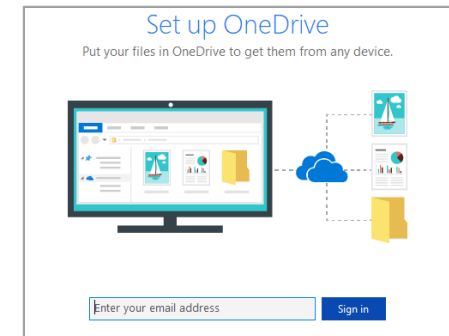

Copy link

You can also share a file by copying the link and pasting it in email, IM, a webpage, or a OneNote page. In SharePoint, select a file and then select **Copy link**. Copy the link and then paste it in the destination.

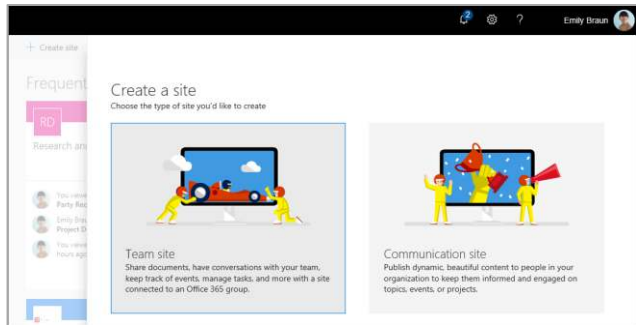

Sync SharePoint files and folders with OneDrive

Sync your files and folders in SharePoint to your computer, so you can access them even when you're offline. From a document library on the SharePoint site that you want to sync files from, select **Sync**, and sign in with your work or school account.
